

SensiPro Granules

A granular dye that can be used both as a spray pattern indicator and pond/lake colourant. Ultra-high strength, 90% pure dye, up to 3x stronger than some powders and 300% to 1200% performance increase over pond colourant liquids.

SensiPro is safe for humans and wildlife and can be used in either man-made or natural ponds.

- Rapid dispersion technology with no unnecessary fillers or surfactants
- Available in blue or green in 1kg or 2kg packs
- Easy to use pourable granule pack

Product	Pack Size	Rate	Spray Dye Rate
SensiPro	1kg(blue) & 2kg(green)	250g per 400m ² surface area	100g per 600 litres of spray
