Yara Krista K Plus 13.0.46

- Tank-mixable with PGR's and most selective weedkillers.
- Great product for golf courses - use on greens, tees, surrounds and fairways.
- Easily dissolves - will not block nozzles.
- Can be applied as a foliar or soil feed.
- 1:3 N:K ratio fertilizer at an economical price.
- Nitrate nitrogen for good turf response in cold soils.

Issue	Suggested Solutions
<p>Turf struggling to grow in cold spring and needs a boost to restore surface levels.</p>	<p>Apply Yara Krista K Plus 13.0.46 at 25-50kg/ha. Once soils warm and growth commences, move onto low-salt slow-release liquids and organic granulars.</p>
<p>Black-layer and low oxygen soils in need of nutrition, but no added sulphur</p>	<p>Apply Yara Krista K Plus 13.0.46 at 25-50kg/ha. Improve soil conditions with a good cultural programme of drainage, aeration, top dressing and thatch removal. Build soil health with Sustane and Growth Products organic granulars and liquids.</p>
<p>Sports pitches in need of regular nutrition throughout the growing season</p>	<p>Apply Yara Krista Urea 46.0.0 at 25-50kg/ha every 2-3 weeks throughout the growing season. For complete plant strength and performance, consult your Regional Technical Sales Manager for a detailed programme using Sustane, Growth Products and Polyon granular and liquid plant health products.</p>
