

A 100% soluble organic extract of Ascophyllus nodosum seaweed, promoting vigorous grass growth, healthy root systems and resistance to environmental stress.

Provides turf with essential trace elements and plant-growth-promoting metabolites such as 16 amino acids, carbohydrates and alginates.

Sol-U-Sea is compatible to tank mix with most other liquids and solubles except directly with acids and oxidizing agents e.g. products containing iron and potassium nitrate. If using these, dissolve/mix them first and fill tank 2/3rds full before adding the Sol-U-Sea.

- Improve root growth and mass without forcing soft top growth.
- Reduce plant damage and thinning during periods of biotic and abiotic stress.
- Improves plant health and sward quality without adding extra nutrients.
- Maintain green speeds and performance through hot, dry summers.
